Why Health Insurance May Not Be Enough

When a critical illness happens your health insurance plan may cover some of your medical and hospital costs, but not everything. You and your family need extra protection that closes the financial gap and helps you manage expenses, such as:

- Out-of-Pocket Medical Costs—deductibles, copays, coinsurance, prescriptions, and medical travel
- Everyday Costs—rent or mortgage payments, credit card debit, car payments, household necessities, and savings for college & retirement
- Recovery Costs—loss of family income, rehabilitation, and childcare or parent care

Would a Check for \$20,000 Help?

Chubb Critical Illness pays you cash immediately. Upon diagnosis of a covered condition, we send a lump sum check directly to you. You can use your cash benefit however you choose—to help with your everyday living expenses, pay your out-of-pocket medical costs or replace lost income. Your benefit is paid in full regardless of any other insurance you may have.

Here's How It Works

When you are diagnosed with a covered condition after the certificate effective date, submit your claim and we'll quickly send you a check. It's that simple. You can use your money however you choose.

Triple Benefit

If you are diagnosed with a covered condition and unfortunately get sick again with another covered condition, you're still covered (provided the diagnoses are at least six months apart). With Triple Benefit, you can receive up to 3 times the Face Amount for each person you choose to cover. That means if you choose a \$20,000 Face Amount you can receive as much as \$60,000 in cash.

Recurrence Benefit

Once Chubb pays a Critical Illness benefit for Benign Brain Tumor, Cancer, Coma, or Heart Attack and there is a recurrence, you can receive 50% of your Face Amount, as long as you were treatment free for at least 6 months.

Triple Benefit in Action (example)

<i>\$20,000 Face Amount x 3 = \$60,000 Total Maximum Benefit</i>	
Heart Attack Diagnosis	\$ 20,000
Stroke Diagnosis (<i>first</i>)	\$ 20,000
Stroke Recurrence	\$ 10,000
Remaining Coverage:	\$ 10,000

Covered conditions must be diagnosed at least six months apart. This example is hypothetical and is solely to illustrate a situation that can result in benefits payable for a claim. It is not based on an actual claim and should not be compared to an actual claim.

Covered Conditions

Benign Brain Tumor
Cancer
Carcinoma In Situ (25%)
Coma
Coronary Artery Obstruction (25%)
End Stage Renal Failure
Heart Attack
Major Organ Failure
Multiple Sclerosis
Skin Cancer (\$250)
Stroke
